Were there other aspects of this topic that you wished were addressed?

More information on impression materials.

Information about which cements to use and which lasers to use for anterior veneers.

A review of specific composites.

More information about cements.

For esthetic restoration, more in depth review of techniques for milling and CAD-CAM.

Clinical techniques of applying resin composites.

Miscellaneous comments?

Great explanation of adhesives.

The course was very informative. Dr. Kugel is an excellent presenter.

Well done. The speaker was entertaining and knowledgeable.

Dr. Gerard is just great. Thank you Dr. Gerard.

Excellent presentation.

Excellent speaker. I loved his sense of humor. He kept our interest through out the whole lecture. I would attend more lectures of Dr. Kugel. Thank you.

A little too fast in the beginning.

Great seminar. He needs more time.

Dr. Kugel is a very knowledgeable speaker. I'll take any course that he gives.

Excellent course.

Very comprehensive. Great presenter and format.

Very engaging speaker. I enjoyed the CE class.

The first part had too much material, too fast.

Thank you, Dr. Kugel.

Great course, he covered a lot of information.

This was really good.

Very useful information.

I love the anecdotal stories.

Great topic. Excellent lecture.

Very applicable clinical knowledge.
